Dear Principals,

**Invitational Education (IE) Seminar
“How to Develop the Potentials of Students
via an Inviting School Environment”**

On behalf of the International Alliance for Invitational Education (Hong Kong) IAIE(HK), it is our great pleasure and privilege to invite you and your colleagues to join our IE Seminar that will be held at Tsung Tsin Christian Academy on Saturday, 12 April 2014.

IAIE(HK) was officially established in 2004. It is a non-profit making educational organization with experienced personnel (principals and educators) in the practices of IE based on the five basic assumptions of Respect, Trust, Care, Optimism and Intentionality. Our mission is to enhance life-long learning, cultivate personal professional growth as well as satisfaction of educators and allied professionals, promote positive changes in organizations, and enrich the lives of human beings personally and professionally. For the 2012/13 school year, we have a total of 73 member schools, including 4 kindergartens, 14 primary, 18 secondary and 7 special schools in Hong Kong as well as 30 schools in other districts of Mainland China. Over the years, we have possessed ample experience in conducting different kinds of training workshops, school visits, cultural exchange programs and other educational services.

This Seminar will definitely provide new insights for school administrators and teachers. We will provide you with a firsthand look at the school transformation through experience sharing from our IE project schools. We are also delighted to bring together two US IE consultants who will introduce the exchange programs with US schools. Most important of all, there will be a briefing session to present the IE model of education practice to support students in a positive and inviting learning environment – its philosophies and the 5P strategies.

Detail arrangements of the program are as follows:
