

各位 2018-19 年度啟發潛能教育計劃學校校長及老師：

Invitational Education Toolkit

(Presented by Dr. Richard Benjamin, Senior Consultant, ArtsNow Learning, & One of the I.E. Toolkit Authors)

The I.E. Toolkit - *Creating Positive Climates for Learning, Leading and Living and is designed* for School Administrators and Teacher Leaders

The *Invitational Education Toolkit* delivers a self-guided journey for any school or classroom teacher planning to build greater school success. There's no resource like it! Rather than clone school improvement with a prescribed set of strategies, *The Toolkit* builds on the unique traits of each school, wherever its journey begins.

Twelve training Steps lead schools along a continuum of Invitational growth and development. Each progressive Step starts with an intentionally designed Power Point lesson for stakeholders. Resources include detailed facilitator notes, engaging video clips, printable handouts, training tips and collaboration opportunities for participants. Facilitators need no previous experience with Invitational Education to lead the workshops.
